QUALITY POLICY STATEMENT

At Liquid Controls Sponsler, Inc., we are committed to designing, manufacturing, and calibrating the highest quality flow measuring products. All associates share this commitment to continual improvement, customer satisfaction and quality.

Manufacturing operations at Liquid Controls Sponsler, Inc. include precision machining and electronics manufacturing combined with rigid, comprehensive calibration and testing procedures.

These operations ensure that every Liquid Controls Sponsler product conforms to the highest quality standards and applicable regulatory requirements. With commitment to competitive pricing, devotion to quality, superior customer service, and a reliable delivery of products, Liquid Controls Sponsler, Inc. strives to combine technologically, innovative products with the highest rate of reliability.

Respectfully,

Ken Hessevick
General Manager
