

LIQUID CONTROLS GROUP

SPONSLER

To: All Liquid Controls Sponsler Distributors

Date: June 9, 2009

From: William R. Hughes

Subject: Liquid Controls Sponsler's consolidating operations to IL

Dear Valued Liquid Controls Sponsler Partner,

We would like to inform you that the decision has been made to move Liquid Controls (LC) Sponsler's sales, service, and manufacturing facility located in Westminster, SC., to the Liquid Controls Lake Bluff, Illinois, facility creating an integrated LCG manufacturing facility. This transition is to take place over the next sixty days in phases and planned to be completed by June 1, 2009.

We will assure to keep you informed during this transition period via multiple update communications. At the present time it will be business as usual so we encourage you to continue to promote and sell the Sponsler products. As always we will continue to provide you with the same high degree of service, support, and deliveries during this transition.

Our goal will be to minimize any inconvenience this may cause you in your promotion of Sponsler products. This move will allow us provide you with additional resources and support for your efforts in the months and years ahead.

Change is never easy, but as business professionals it is something that we learn is constant. Please do not hesitate to contact the Liquid Controls Sponsler sales team to answer any questions you may have. I am attaching an updated copy of the LC Sponsler coverage map for your use.

Thank you for your continued support of Liquid Controls Sponsler.

Respectfully,

Bill Hughes
